# FLORIDA CYBERSECURITY FORUM

Securing all you value

Tuesday, Nov. 19 • Networking Reception  
Wednesday, Nov. 20 • General Session

Visit [FAIF.org](http://FAIF.org) to register and  
for more information.

## Discussion Topics

### Threats & Resiliency

What are the most significant cyber threats and from where will they originate? How are companies and state agencies defending against attacks and intrusions? Where are the weak points in systems and training? What are steps which can be taken to better protect our data and critical infrastructure?

### Evaluating Cyber Liabilities & Insurance

Even the world's most sophisticated defenses are not impervious and many experts have adopted a "not if, but when" approach to breach risk mitigation. How do you best manage these risks and accurately evaluate exposure? What is cyber insurance and what are options for coverage?

### Election Security

The American people's confidence in the value of their vote is principally reliant on their confidence in the security and resilience of the infrastructure that makes the Nation's elections possible. What are recent actions taken to enhance cybersecurity for our state's election systems?

### Challenges for Cities & SME's

Municipalities and small and medium-sized enterprises (SMEs) are some of the most vulnerable and disproportionately impacted groups by cyber attacks. What do local governments and small businesses need to know most about cybersecurity issues?

### Cyber Education & Workforce Training

As cyber threats continue to grow in sophistication, organizations face a persistent challenge in recruiting skilled cybersecurity professionals capable of protecting their systems against the threat of malicious actors. What is Florida's current cybersecurity education and training environment, and is it keeping pace with the growing need for cyber talent?

## Sponsorship Opportunity Levels

Title Sponsor – \$20,000  
Gold Sponsor – \$10,000  
Silver Sponsor – \$5,000  
Bronze Sponsor – \$3,000
